secured leave to file it. The report was adopted under the operation of the previous question amid great enthusiasm.

In obedience to this order, the silver delegates from the VIIth District left the hail, but the gold delgates never left their seats, and there was a period of almost riotous confusion while the move was being made. After the silver men had left the hail J. E. McCullough, of Marion Country, offered a report of the VIIth District meeting—that is, the gold wing of it—but the Chair peremptorily declared it out of order and declared that the report of the Resolutions Committee was the order of business.

"The VIIth District," said Mr. McCullough calmly, "would like very much to participate in this convention, and again I beg to offer the re-

this convention, and again I beg to offer the re-

port of the meeting."
"That is past and gone," said Chairman Bell,
with a smash of his gavel. There was so much
confusion that a recess of thirty minutes was
ordered to give a chance for the Viith District silver men to report. In the mean time the gold people tried to find their report to offer it, but they had lost track of it and could not find it until the opportunity to present it had passed and the convention awaited the report of the silver contingent.

THE POLICE CALLED IN.

The platform was started on its way by a motion for the previous question, when W. D. Bynum arose and a wild scene ensued. He was intending to offer a minority report. The convention endeavored to how! him down, but he stood his ground. Chairman Bell declared him out of order and declared the platform alopted, but Bynum wildly gesticulated and declared that he was acting under the rules. Each side tried to outyell the other, and the police were ordered to clear the atsles, but Bynum still stood untouched. Senator Turple was brought forward and started to speak, but it was five minutes before he could be heard. He finally secured attention while he made a silver speech of some length. All the time the Senator talked Bynum stood in the aisle, and when Turple's speech was finished he again demanded attention, and confusion was resumed. Over an hour was spent in trying to get a hearing for Bynum. wildly gesticulated and declared that he was act-

Chairman Bell ordered the aisles cleared, but this only added to the confusion and uproar, which lasted for fully half an hour, while the chairman railed at the police and the delegates howied themselves hourse. Major Winfred, a silhowied themselves hoarse. Major whited a ver man, of Evansville, was yelling from the stage to have Bynum put out, and finally sprang down to where the ex-Congressman stood, with the intention of doing it himself, but the police interfered, and there was no altercation.

HOOTS AND HOWLS FOR CLEVELAND. Finally, when everybody was tired out, ex-Congressman John E. Lamb, a silver delegate, moved that Bynum have five minutes of time, and order was gradually restored. A rollcall was taken on this motion, and it was carried by a slight majority. When Mr. Bynum took the stage he was greeted with hoots, hisses and cheers. He first explained that under the rules of the convention he had a right to be heard, and then read the amendment which he had intended to offer. This was to strike out the financial plank and insert in its stead a plank adopted at the Chicago Convention in 1892. After reading this, he declared that Grover Cleveland was for sound money and that 90 per cent of the Democrats of Indiana were for Grover Cleveland etill. This was greeted with such a storm of hoots and howis that nothing further could be heard. The convention would not listen to another word, and Bynum was finally compelled to retire. this motion, and it was carried by a slight major-THE PLATFORM.

The principal planks of the platform, as finally adopted, are as follows:

We reaffirm our adherence to and faith in the Democratic destrice, bimetallism, and therefore demand the immediate restoration of bimetallism by the free and unlimited coinage of both silver and gold as primary money at the ratio of 16 to 1, without waiting the co-operation of Great Britain or any other foreign Power, all such coinage to be full legal-tender in the payment of all debts, public and private.

gold as primary money at the ratio of the out waiting the co-operation of Great Britain or any other foreign Power, all such coinage to be full tegal-tender in the payment of all debts, public and private.

Resolved, That we believe the existing tariff laws will be fully equal to all demands for needed revenue for the expenses of the Government, economically administered, under the conditions which will arise from the restoration of bimetallism.

We are exposed to the redemption and final cancellation of the United States notes (greenbacks), or any other motes or certificates issued by the United States to circulate as money, such redemption and cancellation necessarily involving an increase of the public debt by the issue of bonds and a reduction of the currency.

We demand a sufficient stable volume of money, gold, silver and paper, to meet the requirements of our growing population and the constant increase of our productive industries.

We protest against the increase of the public debt by the issue of interest-hearing bonds or otherwise in time of peace, and if the redemption clause of the so-called Sherman Resumption Act of 1875 authorizes, as is claimed, the right of the Treasury Department to issue interest-hearing bonds without limit, without the express and definite authority of Congress as to each issue of such bonds, we demand that this provision of such act be unconditionally repealed. The Democratic party has never believed that a public debt is a public blessing. We demand that obligations of the Government in every form be paid and redeemed in conformity with the laws under which they were issued in coin, gold and silver, at the option of the Government of the United States, and not at the option of the Coditor.

We do most heartily sympathize with the people of the island of Cuba in their sailant struggle against the Spanish monarchy for freedom and independence. We helieve that public war exists in Cuba, and that the parties thereto ought to be accorded all the risks of beligerents.

We indorse the administration of the Hon. Claude Matthews, Governor of Indiana, as having been wise, prudent and patriotic, and that his practical ability, his executive genius and capacity for public effairs, as well as his high personal integrity and character, and his popularity with the people, all show him to be worthy of higher honors. We, therefore, earnestly commend him, in full confidence of success at the election, to the Democracy of the United States as a candidate for the Presidency. And the delegates from Indiana to the National Convention are hereby instructed to cast their votes in his favor for the Presidency, first, last and all the time, and to use all honorable efforts to secure his nomination.

The convention then proceeded to nominate a candidate for Governor, and on the first ballot B. F. Shively, of South Bend, was nominated, George W. Cooper, who was put up by the sound-money men, getting less than one hundred votes. This was not a test, however, for Lake, Tippecanoe and other sound-money countles voted for Shively.

The convention dragged along for hours in the work of balloting upon the minor nominations. The ticket complete is as follows:

Judge Reagan on one side and Governor Hogg on the other, adopted Judge Reagan's money plank in the platform. It is as follows:

We favor the free and unlimited coinage of gold and silver into standard money without discrimination against either, and at a ratio of is to 1, independent of the action of any other nation, which standard money shall be legal tender for all debts, public and private, and we further demand that the money of the country shall consist of gold and silver thus coined, and of paper convertible into these coins on demand of the holder, and in this connection we demand that the practice of the Treasury Department of refusing to pay coin notes in silver the same as in gold shall be discontinued, because the same is an unwarranted use of power which results in making the Federal Treasury but a broker's office for speculation in gold.

We demand that a law shall be enacted by the Federal Congress making gold and silver coined at the ratio heretofore mentioned and the paper convertible into such coins at the demand of the holders of such notes as legal tender for all debts, private and public, thereafter contracted, without reference to any contract or agreement that debts be paid in a particular kind of money, reserving alone the right

There was a fight over a motion to elect eight instead of four delegates to Chicago, but it was carried and the following were elected: Governor Culperson, John H. Reagan, Horace Chilton, John M. Duncan, Congressman Psiley, E. G. Sentor, W. A. Blake and ex-Governor Hogg. The delegates were instructed to vote for Bland if in their judgment at Chicago he proves the most available free-silver Democrat. He was declared to be the choice of the Democracy of Texas.

Thirteen Presidential electors were named and the convention adjourned sine die.

Columbus, Ohio, June 24.-The Ohio Democracy to-day jumped from Briceism to McLeanism. Five years ago Mr. Brice was selected by the party to represent Ohio in the United States Senate, although he was considered a non-resident of the State. To-day the same party made John R. Mc-Lean, who has not lived in the State for many years, and seldom visits his former home in Cincinnati, the head of the delegation to represent the Ohio Democracy in the National Convention. The convention was a remarkable gathering, dominated by the free-silver sentiment to an extent that dethroned all reason and moderation. General A. J. Warner, president of the National Bimetallic Association, who was made the permanent chairman of the convention, four years ago bolted the party and called a convention at St. Louis for the purpose of placing an independent ticket in the field. President Cleveland and the present National Administration were completely ignored, the convention refusing to recognize a minority report from the Committee on Resolutions giving expression to the party sentiment on the foreign policy or other important questions affecting the general country.

CAMPBELL CAST ASIDE.

The free-silver craze was so rampant that no act of the gold element could receive consideration, to say nothing of indorsement. Cleveland differed with the majority on the money question and his name did not receive favorable mention at any stage of the proceedings. Even Governor Campbell, who has been the idol of the Democracy in this State, was coldly received. No effort was made to indorse him for the Presidency and to recognize his past services to the party. Campbell refused to bow to the silver god, and he was ruthlessly cast aside for those afflicted with the

The convention was like a howling mob most of the time, and the name of Judge Blandin for Supreme Court Judge was presented by a Cincinnati "tough" and seconded by a rounder and heeler of the same city. Blandin was nominated, but it is doubtful if he will accept under the circumstances. A number of the county delegations left the hall to catch early trains, and after their departure the Hamilton County delegates brazenly cast the vote of the absent delegations.

TO COST THE PARTY DEAR.

The action of the convention to-day will lose many thousands of votes to the party, and many Democrats predict that Onlo will give McKinley nearly 200,000 majority in November. The delegates-at-large are John R. McLean, of Cincin-

hiesed down at that point, and the report of the Committee on Rules was called for and read by Allen Smalley, of Wyandotte, the chairman of the committee. Senator McMaken tried to have the clause which required all resolutions to be sent to the Committee on Resolutions stricken out, but the motion was defeated by an over-

amendment, and a committee was sent to escort the chairman, General A. J. Warner, to the hall. The overwhelming vote by which the report of the Committee on Rules was adopted showed that any opposition from the gold delegates would be futile. The only thing they objected to was the rule sending all resolutions to the Resolutions Committee, thus practically shutting off debate, when the report of the Resolutions Com-

debate, when the report of the Resolutions Committee came in.

On taking the chair as permanent chairman, General Warner made a short speech. His only criticism of the present National Administration was that it had created an enormous debt in a time of peace. He said he believed that Major McKlaley was honest in his money theory, but he could no more bring prosperity to the Nation that way than he could lift himself by his hoot-straps. his boot-straps.

his boot-straps.

The report of the Credentials Committee seating the sliver delegates in Star County, the only place where there was a contest, was accepted without opposition. A minority report recommending the addition to the platform of a tariff plank, a Cuban sympathy plank and other resolutions denouncing the Republican Administration of the State was presented by J. C. Patterson, of the Hild District. It was promptly tabled. A motion was then made to strike out the unit rule resolution. This was also tabled. tabled. A motion was then made to strike out the unit rule resolution. This was also tabled. The call of the roll of counties was demanded on the question of adopting the majority report by the opponents of the unit rule, all opposition to free coinage having apparently been withdrawn, and the platform as reported by the majority of the committee was adopted by a vote of 542 to 128. It reads as follows:

the committee was adopted by a vote of 542 to 128. It reads as follows:

We, the Democrats of Ohlo, in convention assembled, hold that the money question is the vital and paramount issue now before the people of this country, and that its early and correct settlement is necessary to the revival of business and the return of prosperity: therefore.

Resolved, That we are unalterably opposed to the single gold standard and demand an immediate return to the Constitutional money of gold and silver by the restoration by this Government, independent of other nations, of the unrestricted colinage of both silver and gold into standard money at the ratio of 16 to 1 and upon the terms of exact equality existing prior to 1823; such silver coin to be a full legal tender equally with gold coin for all debts and dues, public and private.

Resolved, That the delegates-at-large this day chosen by this convention from the several Congress districts be, and they are hereby, instructed to use all honorable means to secure the adoption of the principles comained in the foregoing resolution by the National Democratic Convention to be held at Chicago July 7, and to vote only for candidates for President and Vice-President who are known to be in full secord therewith, and to accomplish these ends to cast the votes from the State of Ohlo as a unit, as a majority may determine.

Patrick McKeown, of Cincinnati, was named for State Food Commissioner.

William Beaumont, of Licking County, was nominated for Member of the State Board of Public Works.

The convention at 5 o'clock adjourned sine die. The Hild Congress District, the last to elect its delegates to the Democratic National Convention, chose its delegates here to-day. J. C. Major J. R. McKelvey said that he could thoroughly indorse the results of the St. Louis Convention. The candidates represented the sentiment and he piatform the thought of the American scopic. No better choice could have been made, and as a result of the success of the Republican party he would look for the prosperity, the upbuilding and the happiness of the entire people. He believed that the piatform contained an earnest, sound, wholesame doctrine, which was worth standing by and fighting for. H. Gilson, Editor of "The Benton Harbor Palladium," to Major and Mrs. McKinley. Mr. Gilson said:

Major and Mrs. McKinley. Mr. Gilson said:

We have come to your home to add our voices in
the great chirus of congratulations that comes to
you through all this broad land, from the Atlantic
to the Pacific and from the Canadas to the Gulf.
We come from the State of Michigan, that is proud
to claim consinsip with Ohto-a State that, like
your own, has vest agricultural and commercial
interests, all of which are to be benefited, as we
firmly believe, through your influence. It is a State
that is now solidly Republican in all its departments. We came from a profession that is quick
to recognize and utilize every American geniuswhether in the form of physics or of statecraft—a
profession which has done much in the past to educate the people along the lines of material development—a profession that is, with the school and the
Church, to uphold National intentity, National edu-RUMORS THAT THE MACHINE MANAGERS HAVE SETT FORWARD

from your name and the principles which it represents.

We have introduced to you to-day gentlemen and falles representing the heat industries of Michigan, and we can constructionsly cay representatives of the largest cities in our State are represented here—Detroit, Grand Rapids, the metropolis and the second metropolis of our State, as well as a number of the larger tawns that are well known throughout the United States. The city of Jackson, Mich, was the home of the Republican party and its birthblace. In that beautiful city, in 1854, was organized the Republican party of which we amily out are so proud to day. I have nothing further to say except this, that we came, perhaps unexpectedly, and so soon after the nomination that we had not time to gather in our hosts, so that our commany is but a small part of which it otherwise would have been; but we came into your yard to help trample down one of your flower-beds, if there are any left to trample.

MAJOR MKINLEYS RESPONSE.

MAJOR MIKINLEY'S RESPONSE

In response Major McKinley spoke as follows Mr. Gilson and Ladies and Gentlemen: I count Mr. Gilson and Ladies and Gentlemen: I count it a very great honor as well as a very great pleasure to receive this visit from the Republican editors of the State of Michigan, I have noted for many years the ability of the press of your State. I have noted that the Republican press has never faitered in its loyalty to the Republican principles, and under all circumstances has been faithful to the Republican cause, nor have I permitted to pass unobserved the very friendly personal spirit which has been shown me for long years by the Republican editors of your State; and during the discussion preceding the Republican National Convention your partiality was so strongly marked and so generous that I cannot forbear to thank you. When your great State, with its representatives at St. Louis stocke, it spoke unitedly, so that the Republican press and the people of Michigan this year were of one mind.

St. Louis spoke, it spoke unitedly, so that the Republican press and the people of Michigan this year were of one mind.

The power which you, ladies and gentlemen, exercise cannot be oversatimated. You not only register public opinion, but you have much to do with making and influencing; it, and in a Government like ours, where public opinion lies at the foundation and is supreme in Government, the press is mighty in its power. The partisan press, too, is indispensable in a Government like ours. As long as we have parties, we must have party newspapers, and it is very grafflying to me to know to-day that the Republican party never had such strength and support as it is receiving from the press of the United States. Its aims and its purposes, and its principles are nearer and dearer to Republicans than ever before, and nearer and dearer to the great masses of our countrymen than they ever have been in the past, and they never deserved the support of the press more than now. In this great National contest you will have very much to de with the result, and I am sure the cilitors of the State of Michigan—the Republican cilitars—can be counted upon to give to these great principles of our narty their best efforts this year, as, hey have aiready done in the post. It has given both Mrs. McKiniey and myself genuine pleasure to have you in our home. We bid you all welcome.

ARRANGEMENTS FOR THE NOTIFICATION. SENATOR THURSTON ISSUES INSTRUCTIONS TO THE MEMBERS OF THE COMMITTEE.

It is a disease of the blood that shows it elf most strongly in the lungs. It is not—as it used to be considered—incurable. Dr. Pierce's Golden Medical Discovery has changed all that. It will cure ninety eight per cent. of all cases of consumption if taken in time. It is the most wonderful blood maker and flesh builder in the world. It cures where doctors have failed. It has brought back to life hundreds of men and women who were considered as good as dead.

Mrs. Nancy R. Tubb, of Amory Montoe Co. Miss. writes':
"About ten years ago I suffered an attack of nervous prostration resulting in other troubles which my family physician pronounced consumption. We doctored with him until we lost all hope. I finally happened to find one of Dr. Pierce's little Memorandum Books, saw his medicine recommended and thought I would try it; sent and got one bottle of each—Golden Medical Discovery and Pavorite Prescription'—and one vial of 'Pellets.' I am now enjoying good health again. I had a little boy who seemed to be subject to phthisic (asthma) and I thought I would try the 'Golden Medical Discovery,' and to my surprise it cured him entirely; he has never had another attack." Omaha, June 24. Senator Thurston and his fam lly, accompanied by Senator Bressler and his wife, will start to-morrow night for Cleveland. Mr. Thurston has issued the following letter of in structions to members of the committee appointed at the St. Louis Convention to inform ex-Governor McKinley of his nomination for President:
